## ASSEMBLY BILL

**No. 326**

---

**Introduced by Assembly Member Blakeslee**

February 10, 2005

---

An act to amend ~~Sections 270 and~~ *Section 275* of the Public Utilities Code, relating to telecommunications.

### LEGISLATIVE COUNSEL'S DIGEST

AB 326, as amended, Blakeslee. Telephone corporations: universal service.

~~Existing law, the federal Telecommunications Act of 1996, establishes a program of cooperative federalism for the regulation of telecommunications to attain the goal of local competition, while implementing specific, predictable, and sufficient federal and state mechanisms to preserve and advance universal service, consistent with certain universal service principles. The act authorizes states to adopt regulations not inconsistent with Federal Communications Commission rules to preserve and advance universal service. The act requires that every telecommunications carrier that provides intrastate telecommunications services contribute, on an equitable and~~

~~nondiscriminatory basis, in a manner determined by the state, to the preservation and advancement of universal service in that state. The act authorizes each state to adopt regulations to provide for additional definitions and standards to preserve and advance universal service within the state, only to the extent that they adopt additional specific, predictable, and sufficient mechanisms that do not rely on or burden federal universal service support mechanisms.~~

Under existing law, the Public Utilities Commission has regulatory authority over public utilities, including telephone corporations. Existing law authorizes the commission to fix just and reasonable rates and charges. Existing law establishes the California High-Cost Fund-A Administrative Committee Fund, ~~the California High-Cost Fund-B Administrative Committee Fund, the Universal Lifeline Telephone Service Trust Administrative Committee Fund, the Deaf and Disabled Telecommunications Program Administrative Committee Fund, the Payphone Service Providers Committee Fund, and the California Teleconnect Fund Administrative Committee Fund~~ in the State Treasury and requires that the moneys in the ~~funds~~ *fund* be expended, *upon appropriation*, only to accomplish *a* specified telecommunications universal service ~~programs, and upon appropriation program~~. Existing law provides that moneys in the ~~funds~~ *fund* are the proceeds of rates and are held in trust for the benefit of ratepayers and to compensate telephone corporations for their costs of providing universal service.

~~This bill would provide that the above-described restrictions do not limit the authority or discretion of the commission to develop, implement, or maintain suitable programs for the support of universal service. The bill would make legislative findings and declarations that, because maintenance of universal public switched telephone network service throughout the state and maintenance of public safety answering points in high-cost areas of the state rely on appropriations from the California High-Cost Fund-A Administrative Committee Fund, maintaining adequate funding levels for the fund is critical to public health and safety.~~

Vote: majority. Appropriation: no. Fiscal committee: no.  
State-mandated local program: no.
